Company Profile

SONGXIN is a professional manufacturer and provider of communication equipment with network accessories. Our products include 5G Optical Transceiver Module, Patch Cord Cable, Outdoor Fiber Cable, Passive Components, Bare PCB and Metal Processing.

Since our establishment, SONGXIN has been committed to excellent research, development, and production in telecom system service. Our mission is to enhance networks for mobile operators and enterprises.

SONGXIN is grateful for the achievement we have accomplished. We are a global business with offices in Taipei, Taiwan, Shenzhen, China and the Republic of Mauritius. We have clients from over 100 cities and 30 countries around the world, and we intend to keep expanding our business in the future.
